

The diagram shows a square layout with a light gray background. A red border, representing the cut line, is 5.125 inches wide on all sides. Inside this is a blue border, representing the safety line, which is 5 inches wide. The area between the red and blue borders is the bleed area. Two arrows point from the top center towards the top corners, indicating the cut line. Two horizontal arrows point from the center towards the left and right edges, indicating the safety line.
