

The diagram shows a rectangular layout with a light gray background. A red border represents the final cut size (6x18 inches). Inside this, a blue border represents the safety area (6.125x18.125 inches). The area between the red and blue borders is the bleed area. Two arrows point from the top center text to the top edge of the red border. A long horizontal arrow points from the center text to the left and right edges of the blue border.
